

TEST DELAY: Sex Hormone Binding Globulin

April 22, 2022

Pacific Diagnostic Laboratories (PDL) is experiencing a testing delay for Sex Hormone Binding Globulin due to supply chain issues.

TESTS IMPACTED

- **LAB9111** **SEX HORMONE BINDING GLOBULIN (SHBG)**
- **LAB8624** **TESTOSTERONE (TOTAL, FREE, BIOAVAILABLE)**
- **LAB10266** **FREE ANDROGEN INDEX (FAI)**

OUTSTANDING TEST RESULTS

If you have any outstanding tests:

We are **HOLDING SPECIMENS AT THIS TIME** and will be performing testing as soon as we receive testing supplies and complete quality assurance steps. Total testosterone may be performed independently on site upon request.

Testing will not be sent to our referral lab unless requested due to reference range and test methodology differences.

If you would like your specimen to be redirected to our partner referral laboratory, please notify your PDL sales representative or contact our PDL Client Services at 805-879-8100.

TIMEFRAME FOR EXPECTED RESOLUTION

Testing is anticipated to begin on site by May 6, 2022. In the event there are further delays, an updated notice will be provided.

Our apologies for this delay and the inconvenience this may cause.

FOR MORE INFORMATION PLEASE CONTACT PDL CLIENT SERVICES AT 805-879-8100
