

C-REACTIVE PROTEIN (CRP):

Result Value & Reference Range Change

January 28, 2026

REFERENCE RANGE UPDATE

Effective January 29, 2026, Pacific Diagnostic Laboratories (PDL) will be adjusting the reference range for **C-reactive protein (CRP) LAB149**.

NEW REFERENCE RANGE

Updated Reference Range	Previous Reference Range
<5 mg/L	<10 mg/L

- PDL will include a comment on the test results to indicate the reference range change for 3 months.
- There is no change to the high sensitivity C-reactive protein (hsCRP) reference range.

REASON FOR THE CHANGE

Reference range review is a part of our PDL quality assurance program. Updates are made as appropriate.
